

DURHAM HOSPITAL FOUNDATION

RAISING FUNDS FOR THE DURHAM HOSPITAL TO ENHANCE THE HEALTH CARE OF OUR COMMUNITY

IMPACT REPORT 2021

**Durham Hospital
Foundation**

Community • Giving • Care

*Creating a vibrant, accessible health care system
for present and future generations.*

itself continued to meet the needs of the public in the face of the continuing Covid crisis. People caring for people—a testament to the kind and helpful nature of West Grey residents!

The front-line health care providers worked many long and strenuous hours providing care to those suffering from Covid and other illnesses. I am very proud of all the doctors, nurses, NP's, PA's, PSW's, DI and hospital support staff for their personal sacrifices and dedication.

I would also like to thank those who helped with Covid vaccinations, boosters and testing to help reduce the impact and spread of Covid.

I, and my fellow Board members are truly grateful for the financial support

shown by members of this community. Donations continued to exceed expectations, allowing the Foundation to support several large purchases of medical equipment.

Several departments benefitted from these gifts- Diagnostic Imaging, Cardio-Respiratory, and the Emergency Department. Some funding was provided to several staff for additional training and education.

The dedication that I witnessed over the last 2 years is inspiring and rewarding. I encourage anyone interested in making a difference to their community to join the Board.

Rajinder Rajput, Chair/
President, Durham
Hospital Foundation

I am honoured to be part of this community and to serve as President of the Durham Hospital Foundation.

Over 2021, health care and EMS providers, the Durham Hospital and the community

Supporting the Durham Hospital in 2021

Foundation donors remained generous in 2021, showing their support for the Durham Hospital with gifts of their money and their time. Rather than allow external circumstances to affect them, they continued to support their hospital, close to their homes and hearts.

Thanks to donors, the Foundation made its final payment for the new ultrasound scanner. The Board paid \$166,000 for the ultrasound over two years.

The Foundation also provided \$42,000 for a new spirometry machine system. The Hospital needed to replace the booth, mouthpiece, stool, spirometry machine and computer. Replacing the respiratory

testing equipment will keep the Durham Hospital on the cutting edge with new technology and skilled staff. Last year, 744 respiratory tests were performed at the Durham Hospital. That is 3 tests each day the machine was in use!

The biggest investment the Foundation made to the Durham Hospital in 2021 was the new ED entrance. Thanks to funders such as FCC's AgriSpirit Fund, Canadian Medical Association Foundation, Bruce Power and Leslie Motors, \$156,000 was raised to fund a new ambulance entrance, providing a safe and private entrance for critically ill or injured patients and a dignified exit for those who pass away while in hospital.

The Foundation and hospital staff thank you, the donors for your generosity. It is your commitment that keeps high quality health care here in Durham.

The Heartbeat Society— Remembering the Hospital with a Legacy Gift

The Durham Hospital has been a leader in community healthcare since 1910. It is where people come together in times of need, everyone is welcome 24/7 and the best care is always available. The hospital provides healthcare to over 16,000 residents and 10,000 annual visitors.

The Durham community came together to provide the hospital with the best equipment and facilities possible. Looking forward, we have no doubt the hospital will be an integral

partner in the wellbeing of the community in the decades ahead.

But we see the challenges ahead. Our hospital is small and not a priority of the province. An aging population and the rapid changes in medicine and technology will put a strain on our vision for 'a vibrant, accessible health care system for present and future generations'. You can play a role in ensuring the hospital continues to offer exceptional healthcare. How? By creating a legacy gift.

A gift in a Will allows us to make impactful gifts that we couldn't during our lifetimes. Making a gift from your assets does not affect your lifestyle and helps ensure your family's inheritance.

How has the Durham Hospital touched your life or the lives of family and friends over the years?

Perhaps the hospital was there for the birth of a precious baby, when your son broke his arm or when a grandparent suffered a heart attack. Durham Hospital has long been a part of our lives. It must always be there for the community.

The Heartbeat Society is a select group of donors who have made a gift in their Wills to the Durham Hospital. They are demonstrating their commitment to their community, their families and their hospital. For information on joining this group, please contact the office. Be special, you Will make a difference!

Generous Gift for Physician Recruitment

One of the biggest challenges ever faced by this Foundation is the need to recruit new family doctors for our community. As doctors retire and practices close, patients have been left with no primary care provider and their health can and does suffer.

This community is also experiencing growth- it is expected the population will grow by at least 50% in the next few years. Not only do present day area residents need a doctor, but so will all the families moving here.

The Physician Recruitment Committee has been working hard over the past six years to reach, steward and recruit new doctors. Members have attended recruitment events, hosted medical students and residents, advertised, created websites and work with other communities' recruiters. One of the

biggest hurdles has been funding; funds for recruitment cannot be taken from fundraised revenue. Until recently, recruitment efforts have been funded from the profits of running the Medical Clinic and from donations specifically designated to recruitment, such as from the Municipality of West Grey.

The Durham Hospital Foundation received a gift of \$250,000 in 2021 designated to physician recruitment. Funds may be used for a variety of things such as advertising, travel, incentives, registration fees and hosting.

Richard Rooney (centre) and his family presented this generous gift to the Foundation to show their support for local health care and commitment to recruiting and retaining skilled doctors. Ultimately, the goal is to help ensure that residents and visitors have access

to the health care they need.

"We are very grateful to Richard Rooney and his family for their generous gift. A gift of this size is transformational, and will have a significant impact on local health care, for today and tomorrow

~Raj Rajput, Foundation Chair

A Volunteer's Story– Janice Daize

I am honoured to sit on the Board of Directors for the Durham Hospital Foundation. When I applied to be a Director in 2018, I assumed I had to learn about the way hospitals worked, were funded, and the policies that governed them. What I didn't expect was that the best learning would be about the heart and soul of the Durham Hospital.

I have been working in the public education system for many years. I believed it was my responsibility to model being a leader today for tomorrow's leaders, and to be

engaged with the community. In return, it has been a privilege to know with my head and feel with my heart, the passion of the Durham Hospital and Foundation's staff (especially during the COVID pandemic) and see first-hand the community's commitment to the operations of the hospital.

Surrounded by this passion and commitment, it is a wonderful opportunity to contribute to fund-raising efforts, whole-heartedly supported by our community. Any one of us – young or old – could be the next patient in the hospital,

depending on up-to-date equipment. But we can't prepare for the unexpected when the emergency is upon us. That is why every effort to be prepared for a wide range of medical needs is essential.

I am proud to be a part of a group of dedicated volunteers who embrace the Foundation's mission to support the Durham Hospital. I encourage you to consider joining the Board and make a difference.

~ Janice Daize,
Director, Foundation
Board of Directors

President and CEO of South Bruce Grey Health Centre– Michael Barrett

The resiliency and dedication of South Bruce Grey Health Centre's staff and physicians has been remarkable as the COVID-19 pandemic rolls into its third year. In the midst of adversity, the SBGHC team faced these challenges, and ensured that patients continue to receive the highest quality of care.

Most recently, the provincial health system has been challenged by a shortage of health human resources, including nursing and laboratory staff, and physicians. These short-

ages led to the difficult decision to reduce hours in the Chesley emergency department (ED) in 2019, and the Walkerton ED in 2021. We continue to work hard to ensure the Durham hospital has the qualified staff and physicians it requires.

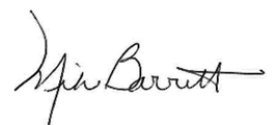

SBGHC has created a Nursing Recruitment and Retention Action Plan to develop a strong team of nurses, which has allowed us to now reopen 24 hour service at the Walkerton ED, and plans to re-open 24 hour service in Chesley in mid-June. The Action Plan will also ensure that we can retain and recruit nurses at the Durham hospital as well.

During these challenging times, support from our communities has been a constant, and we are extremely grateful for this support. Support from the Durham Hospital Foundation was instrumental in the construction of a new ambulance

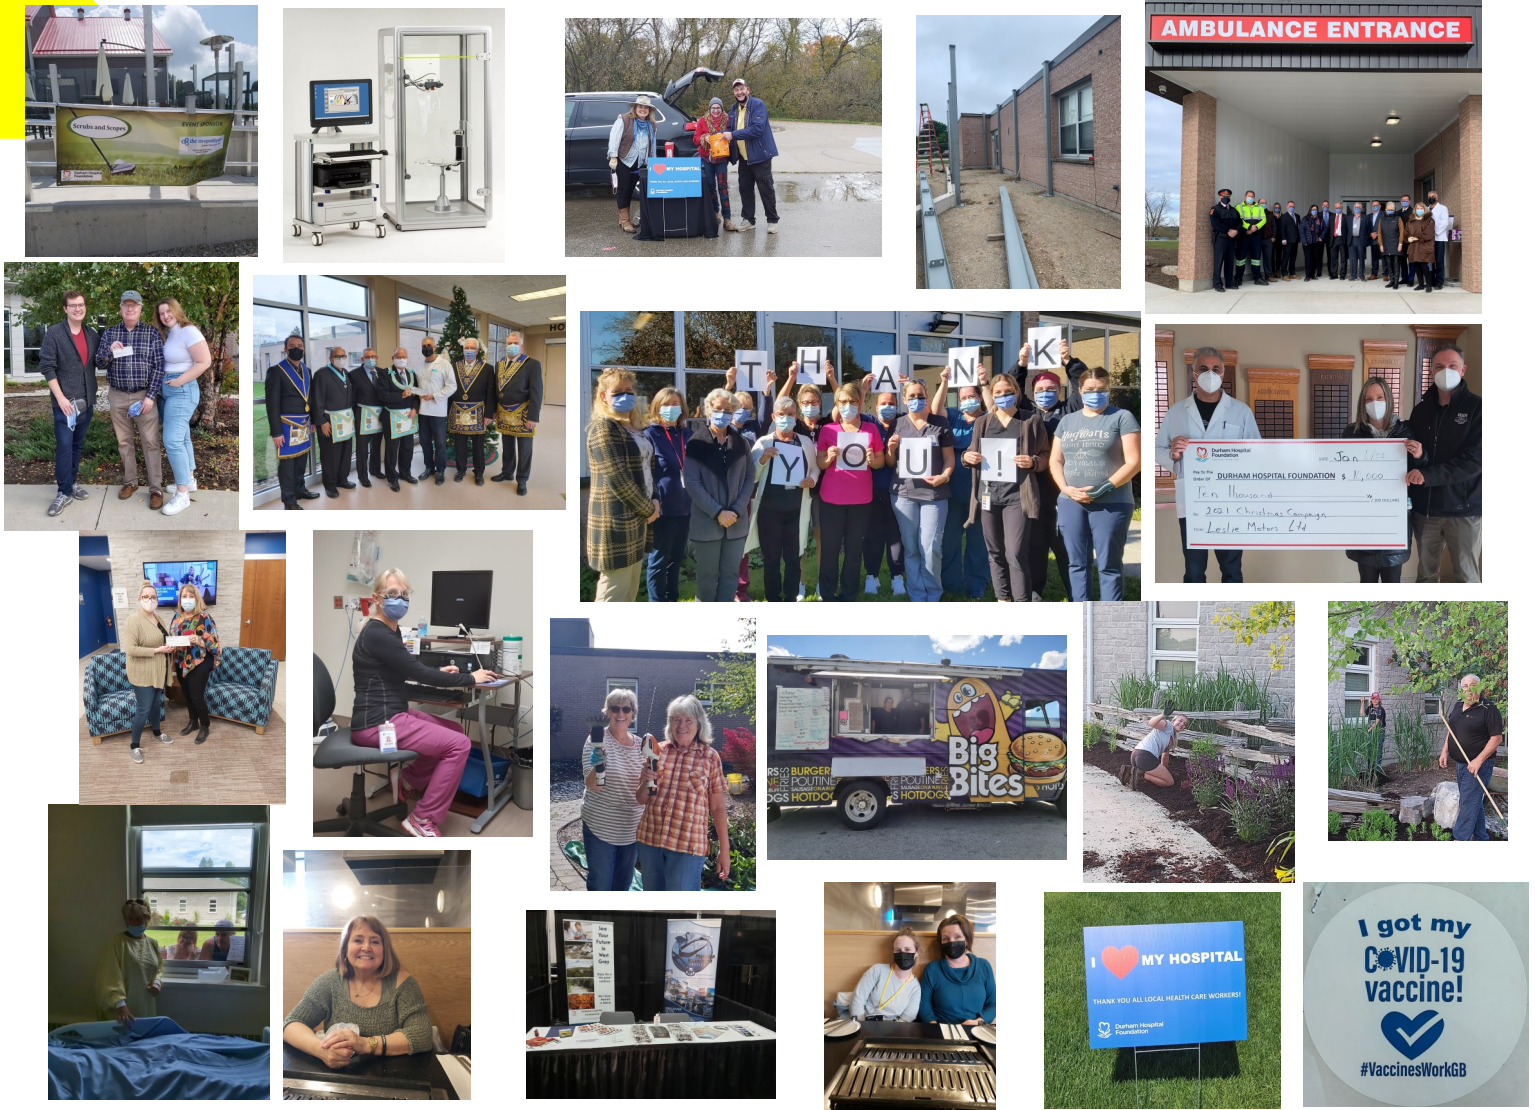

entrance, which opened in November 2021, providing a better experience for patients arriving at the hospital in an emergency situation.

The Durham Hospital Foundation also supported the purchase of a new spirometry machine for our cardio-respiratory department - a critical piece of equipment used to diagnose breathing-related illness. The Foundation has also contributed to the replacement and upgrade of the hospital's telephone and overhead paging system, leading to an improved patient experience.

Please know that your gift to the Durham Hospital Foundation supports essential equipment for providing care. On behalf of SBGHC's Board of Directors, staff and physicians, I want to extend our sincere thanks for your support throughout 2021.

A handwritten signature in black ink, appearing to read 'Michael Barrett'.
